More than 27,000 residents of Lafourche and Terrebonne lack consistent access to enough food for a healthy life because of a lack of financial resources, including over 11,000 children. Bayou Community Foundation and Second Harvest Food Bank invite you to a first-ever “Bayou Region Summit on Hunger” where local organizations and government agencies will share their observations on hunger in our area and the impact food insecurity has on our community. Together, we’ll explore ways that we can strengthen or cultivate partnerships to fill this need. *Your participation is valuable. Please join us for this critical community event!*
