**Bayou Community Foundation Announces \$1.29 Million  
in New Grants for Hurricane Ida Relief and Recovery**  
*\$1.8 million in relief and recovery services funded by Foundation to date.*

(HOUMA) The [Bayou Community Foundation](http://www.BayouCF.org) (BCF) announced a second round of grants today totaling \$1.29 million to 17 local nonprofits for critical relief and recovery assistance provided to residents of Lafourche Parish, Terrebonne Parish and Grand Isle in the aftermath of Hurricane Ida.

Since September 5, one week after the storm made landfall in Lafourche Parish, the Foundation's Bayou Recovery Fund for Hurricane Ida Relief has funded a total of nearly \$1.8 million in grants for distribution of hot meals, nonperishable food, water, gasoline, clothing, and hygiene and cleaning supplies, as well as temporary housing, medical programs, and classroom supplies and equipment. Bayou Community Foundation is working to raise \$10 million in donations to the Bayou Recovery Fund to support our heavily impacted Bayou Region through the rebuilding process.

"Thanks to the compassion and generosity of individual and corporate donors around the country, Bayou Community Foundation has been able to act swiftly and effectively over the past five weeks to fund programs that are filling the most urgent needs of our residents like food, water, and essential supplies. Our local nonprofits are doing amazing work to help the suffering among us," says President Henry Lafont. "We know this is just the beginning, though. As we turn the corner from relief to recovery, the Bayou Recovery Fund is positioned to help address longer-term needs in Lafourche, Terrebonne and Grand Isle like the housing crisis we now face and the mental health needs that we expect to come."
